

Vishal Global Exports

Indian agri-commodities & Bengal handicrafts — sourced to your
written specification, and documented to clear customs clean.

A Kolkata export house, built to be verified.

We source directly from the rice mills, farms and artisan clusters of West Bengal and eastern India, and ship against your written specification — with direct accountability for grade, inspection, documentation and logistics.

We are a merchant exporter. We don't own the mills or farms, which is precisely what lets us put the right source behind each order — and we never claim otherwise.

Founded in 2026 by proprietor Vishal Biswas, the house carries the Biswas family's food-trade heritage — the Ganapati trade, since 1995 — into international markets.

“Verify us before you spend a rupee.”
